- Identified **\$1.2M in revenue expansion** opportunities by translating cohort analyses into **Looker dashboards** and co-presenting strategic business reviews to the **CEO and COO**.
- Saved **40+ hours of manual work** monthly by replacing 4 cross-functional Excel billing reports with **automated BigQuery SQL pipelines**, extracting and transforming **Payload CMS data** and **documenting workflows** for the reporting team.

Product Manager

Booking Bash | *Travel & Experiences Marketplace, Dubai, UAE*

Nov 2019 - Oct 2023

- **Grew active subscribers 3×** by owning **GTM** for co-branded partnerships with Visa, Samsung, and ADCB, productizing member eligibility and deploying exclusive offers across each partner's customer base as a **low-CAC channel**.
- Recovered **off-peak demand to 2.2×** baseline during the UAE's post-COVID tourism rebound, targeting resident staycations with adaptive member discounts set on pre-COVID booking data.
- Launched **Booking Bash Pro loyalty subscription** from discovery through rollout, using retention cohorts to target high-frequency users and **price A/B tests to set tiers**, converting **25% into ~1,000 paying members in year one**.
- Raised **bookings per user by 45%** among migrated web users by leading the web-to-mobile transition, running a cross-functional engineering-design pod through **agile** delivery to ship **native iOS/Android** apps with push re-engagement.
- Owned **supply-side product and ops for 500+ venue listings**, managing vendor contracts and government booking-policy compliance as the **marketplace scaled to \$10M+ annual GMV** across the UAE.

Associate Product Manager

Woxro | *Digital Product Studio, Kochi, India*

Aug 2017 - Oct 2019

- Delivered **15+ web and React Native mobile products from discovery to launch** for clients across fintech, e-commerce, energy, and IoT (Aramco, Zenni, Boohoo), translating **user research into specs, wireframes, and sprint-ready backlogs**.
- Drove **61K additional sales conversions** for Currys, a UK electronics retailer, by simplifying checkout, adding multiple payment methods, and streamlining product search based on **buyer-behavior research**.
- Lifted **digital engagement 57%** on First Direct's banking platform by leading **user interviews, journey mapping, and usability testing**, building cross-device layouts and **secure transaction flows** that reinforced customer trust.

PROJECTS

- **Productsense** (Web App): Built a deep-agent **PM tool to fix how coding agents drift without product direction**; a PM agent does end-to-end discovery and planning, **syncs sprint plan to coding agents via MCP**. [Case](#) | [Code](#) | [App](#)
- **Debatly** (Web App): Built a **live AI debate analyzer to make messy debates fact-checkable**; transcribing audio, speaker diarizing, multi-LLM pipeline **extracts points, fact-checks claims and flags double standards into a live score**. [Code](#) | [App](#)

LEADERSHIP AND AWARDS
